

International exchange and cooperation – Vietnam & Australia trade promotion

The Gia Dinh Regional Business Association would like to express its sincere gratitude to the Executive Committee members, esteemed members, and partners who have been present, accompanied, and contributed to creating a strategically significant event in the process of international integration of Vietnamese businesses.

The program, organized by the Foreign Affairs and International Cooperation Department, with the participation of the Australian Business Delegation, was not only a diplomatic meeting but also an important starting point for the journey of connecting, opening markets, and promoting sustainable cooperation between the two countries.

Through this program, businesses from both sides have:

-

Directly met, exchanged information, and connected with international partners.

-

Opened up opportunities for investment cooperation, import and export, and market expansion in Australia.

-

Shared experiences, business models, and long-term development orientations.

During the working session, the Australian business delegation visited the booths showcasing typical products of the association's members and expressed their need for substantive trade connections with the Gia Dinh Regional Business Association.

On behalf of the Association, Dr. Dang Thanh Vu outlined several strategic cooperation areas, laying the groundwork for further in-depth research and gradually realizing import and export opportunities to the Australian market and developing multi-sector businesses in the future.

The event was not just about networking – it was the beginning of concrete actions, real value, and a long-term cooperation future.

Once again, we sincerely thank all businesses and members for their trust, participation, and partnership with the Association on our journey to expand into the international market.
